In-Person review to prepare for the certification exam to earn or renew the credential.

## ADVANCE YOUR EDUCATION

### HPBExpo

Atlanta, GA | Mar 2-5

North America's premier indoor-outdoor showcase is turning up the heat on the education program to be even better in 2022. Join us for comprehensive chimney sweep education led by experts here at the CSIA in addition to the 30+ elective and technical sessions developed by the Hearth, Patio & Barbecue Education Foundation as well as the NFI.

### CSIA Hands-On Gas Training

CSIA Tech Center | Jul 21-22

This 2-day course covers troubleshooting and the knowledge necessary to be successful servicing gas appliances.

### Chimney Documentation

To Reduce Liability and Increase Profits

CSIA Tech Center | Feb 24-25

Manchester, NH | Apr 27-28

Learn proper chimney inspection techniques and reporting skills to reduce your liability and increase your bottom line.

### NFI Wood Training

CSIA Tech Center | Jun 13-15

This 2-day class covers both solid-fuel factory-built fireplaces and all types of wood stoves, including freestanding, inserts, and manufactured high-efficiency fireplaces. We'll discuss installation and planning, solid-fuel appliance regulations and instructions, appliances, venting and ventilation, and troubleshooting.

### Chimney Science

CSIA Tech Center | Feb 23

Scranton, PA | May 19

A home functions as a system of integrated parts. Learn the science of making a home's chimney and venting systems function successfully.

### NFI Gas Training

CSIA Tech Center | Jun 16-17 | Jul 19-20

We will walk through topics like regulations and instructions, fuel characteristics and delivery, appliance requirements, venting, ventilation, and troubleshooting. Various venting methods and all major gas hearth appliances will be covered including fireplaces, gas log sets, inserts, and freestanding stoves.

### Factory Built Changeout

CSIA Tech Center | Apr 21-22

Factory-built fireplaces have a life span, and across the country many are reaching the end of the road. In this class we will be discussing selling and pricing, removing the old unit and replacing. As part of the class we will get hands-on practice removing and replacing a unit along with learning the carpentry skills required.

### Masonry School

Richmond, IN | Feb 7-11 | Aug 22-26

This 5-day course will take the student from the basics of brick and mortar through advanced skills with extensive hands-on instruction from expert instructors.
