## ADVANCE YOUR EDUCATION

### HPBExpo

Atlanta, GA | Mar 2-5

North America's premier indoor-outdoor showcase is turning up the heat on the education program to be even better in 2022. Join us for comprehensive chimney sweep education led by experts here at the CSIA in addition to the 30+ elective and technical sessions developed by the Hearth, Patio & Barbecue Education Foundation as well as the NFI.

### Chimney Documentation

To Reduce Liability and Increase Profits

CSIA Tech Center | Feb 24-25

Manchester, NH | Apr 27-28

Learn proper chimney inspection techniques and reporting skills to reduce your liability and increase your bottom line.

### Chimney Science

CSIA Tech Center | Feb 23

Scranton, PA | May 19

A home functions as a system of integrated parts. Learn the science of making a home's chimney and venting systems function successfully.

### Factory Built Changeout

CSIA Tech Center | Apr 21-22

Factory-built fireplaces have a life span, and across the country many are reaching the end of the road. In this class we will be discussing selling and pricing, removing the old unit and replacing. As part of the class we will get hands-on practice removing and replacing a unit along with learning the carpentry skills required.

### CSIA/NFI Wood Review/Exam & Hands-On Training

CSIA Tech Center | Jul 18-20

This 3-day class is a partnership between CSIA & NFI and covers both solid-fuel factory-built fireplaces and all types of wood stoves, including freestanding, inserts, and manufactured high-efficiency fireplaces. We'll discuss installation and planning, solid-fuel appliance regulations and instructions, appliances, venting and ventilation, and troubleshooting.

### CSIA Hands-On Gas Class

CSIA Tech Center | Jun 15-17

This 3-day course covers troubleshooting and the knowledge necessary to be successful servicing gas appliances.

### NFI Gas Review & Exam

CSIA Tech Center | Jun 13-14 | Jul 21-22

We will walk through topics like regulations and instructions, fuel characteristics and delivery, appliance requirements, venting, ventilation, and troubleshooting. Various venting methods and all major gas hearth appliances will be covered including fireplaces, gas log sets, inserts, and freestanding stoves.

### Masonry School

Richmond, IN

Feb 7-11 | Jun 13-17 | Aug 22-26

This 5-day course will take the student from the basics of brick and mortar through advanced skills with extensive hands-on instruction from expert instructors.

### CSIA Hands-On Relining Course

CSIA Tech Center | Mar 15-17

This seminar will teach attendees the why, when, and how of stainless steel relining.

### Ropes Course

Virginia Beach, VA | May 24-25

Learn how to safely set up fall protection systems before you leave the ground and how to safely access roofs of any pitch.

### CSIA Business Symposium

McLean, VA | Feb 24-25

Smyrna, TN | Jun 9-10

This All-Star group of speakers and business consultants have taken many businesses to new heights of operational efficiency and profitability, and may just have the next tip to take your business there, too.
